Supporting Units

- Equipped with latest technology, our printing department always stresses in:
- Accurate screen printing on ready-made garments
- Exact quality printing
- Guaranteed print color fastness
- Perfect design matching
- Daily 8,000 pieces of output in 2-6 colors results low production cost and on time delivery, always.
- **Our offers also include pigment, plastisole-rubber and discharge printing.**
- **Pigment discharge printing & its benefits:**
- The benefit of "pigment discharge screen printing system" is the ability to achieve light color prints on dark Textiles very brilliantly, which is softly handled and capable of gaining efficiency on high production. We have the technology to print light color on dark ground using discharge pigment print method.
- We always assure you the best quality printing in all ranges of motive prints on readymade knitted garments. For example, now we can print yellow on black grounds without the help of plastisole or rubber, which will be feeling softer than ever.
